## Profile

As a developer, my ultimate goal is to create a meaningful impact within my environment. I am constantly on the lookout for opportunities to grow both personally and professionally. By actively acquiring new skills, sharing knowledge, and building valuable relationships, I am committed to making a positive difference. ❤️

## Experiencia profesional

📅 10/2020 – 04/2021 📍 CAIRO, EGYPT

### Customer care agent Vodafone

was losing my mind every single day tryna solve problems that I wasn't involved in, to be honest. but I learned how to control my anger and to understand people and that helped me to be more collaborative when I started my journey as a self-taught Software engineer. I love this period in my life.

📅 11/2021 – 03/2022 📍 GIZA, EGYPT

### Junior Frontend Developer Softgates

- Collaborated with a teammate to fulfill frontend development responsibilities at a small company
- Demonstrated exceptional adaptability and rapid learning to meet all client requirements efficiently
- Assumed full ownership of entire projects, taking sole responsibility for their successful execution
- Independently structured and implemented projects without the presence of a frontend team lead or senior
- Acquired the ability to properly structure large-scale applications through self-guided learning
- Developed strong project management and organization skills within a short timeframe

📅 03/2022 – PRESENT 📍 REMOTE

### Frontend Engineer Abwaab

- Developing full-scale features for a user base of millions, ensuring a seamless experience for

## Experiencia profesional

end-users.

- Creating reusable logic components to optimize team efficiency and streamline development processes.
- Facilitate the onboarding process for new team members, providing comprehensive guidance and support.
- Prepare thorough documentation for complex project components, ensuring knowledge transfer and team collaboration.
- Played a pivotal role in successfully migrating the team's technology stack from nuxt.js v2 + Js to nuxt v3 + typescript.
- Collaborate in resolving critical bugs and participated in task forces to maintain smooth production operations.
- Strengthening application security measures, and implementing enhancements to safeguard user data and privacy.
- Assisted the team in adopting better coding practices and improving overall code quality.
- Lead internal projects to support other departments in the company, such as customer care and teachers.
- Work on internal CMS application to provide content for the platform.

📅 05/2022 – 04/2023 📍 REMOTE

### Frontend Team lead Jetorder

- Led a part-time Frontend Team, utilizing Vue 3 and TypeScript as the primary technology stack
- Spearheaded the development of a comprehensive design system for the company, establishing a consistent and cohesive visual identity
- Constructed a robust framework consisting of numerous reusable and fully functional components, resulting in improved efficiency and productivity for team members
- Collaborated closely with the product team to optimize the development process, adapting to the unique circumstances of the company
